Run Config

Grammatical mistake using uppercase in cental sentence. Please correct this world and sentence in button 'Open Configurator app.Wizard' to 'Open configurator application wizard'

Please correct sentence in first button of main application.
Instead of 'Open Configurator app.Wizard' to '**Open Configurator application wizard**'.
Additionally, all buttons used uppercase letter in first each word in sentence, which some words haven't name of sciencelist, place, company.
E.g. Reflash Drone need correct to Reflash drone
